¹ Includes public street and highway lighting, other sales to public authorities, sales to railroads and railways, and inter-departmental sales.

² U.S. sales 1998-2000 may be missing a small amount of retail sales by non-utilities due to data collection problems during the transition to a restructured utility industry.

³ EIA data on industrial sales corrected by adding BPA sales, which EIA didn't include this year.

⁴ Data calculated by adding Distribution Only Volumes reported by MPC to the Securities and Exchange Commission to the data reported on EIA Form 861. The resulting "Commercial" volumes are slightly higher and "Industrial" slightly lower than had they been reported under Form 861 category definitions.
